

**DEKRA Emission Check, Inc. opens new Emission Test station in the Wal-Mart parking lot in Acworth with one purpose – a more convenient emission inspection for the community.**

**Marietta, GA:** DEKRA Emission Check Inc. opens its doors to a new emission “test-only” station in the Wal-Mart parking lot at 3826 Cobb Parkway, Acworth, Georgia 30101. The new testing station sits on the south side of the parking lot- directly across from the Acworth Tag office. The key purpose of adding another emission test station was to make the compulsory emission test more convenient to the communities’ motoring public. “We understand that our customers have busy schedules. Our goal is to bring more conveniences into their lives. Our new location provides the convenience of running errands at Wal-Mart, and receiving the 5-10 minute emission test in the same parking lot. In addition, the Acworth tag office is less than 100 yards from our emission test lane and being this convenient will save motorists a lot of time in the tag renewal process,” explained Ken Meissner, VP of DEKRA Emission Check.

Currently, DEKRA Emission Check has 27 test-only stations in the Atlanta Metropolitan region, but the Acworth station is the only facility on a Wal-Mart property Office hours are: Monday-Friday from 8:00 AM to 5:00 pm; Saturdays 9:00 AM to 5:00 pm and Sundays 12:00pm to 5:00 PM.
